EXPERIENCE

Product Designer

Northern Trust · Jan 2026 – Jun 2026

- Ran 8 stakeholder sessions to map how analysts toggled across three risk systems, then consolidated the view to **cut portfolio review time from 40 min to 12**
- Designed progressive disclosure that surfaces risk categories by severity with drill-down, resolving competing constraints from Engineering, Compliance, and Operations in one view
- Shipped in two sprints; operations teams began **catching over-exposure problems they had missed for months**

Founding Designer

FlairxAI · Apr 2025 – Dec 2025

- Shipped an **end-to-end AI hiring MVP in 3 weeks**, two months ahead of schedule, across 4 core workflows with zero WCAG 2.1 AA violations at handoff
- Redesigned candidate evaluation and recruiter scheduling workflows, cutting **review time from 40 min to 5** and **scheduling time from 2 hours to 30 min**
- Merged two conflicting design systems into a single **45-component source of truth** covering tokens, spacing, and accessibility, adopted across mobile, web, and 4 engineers

Product Designer

GetUp Nutrition · Feb 2025 – Apr 2025

- **Increased sales conversion by 20%** by shipping a celebrity partnership popup that connected brand storytelling, product discovery, checkout, and newsletter acquisition
- Built a scalable design system and validated UX decisions through cross-functional workshops and rapid Lovable prototypes, without engineering support

Product Designer

Keel Foundation · Sep 2024 – Feb 2025

- Owned the end-to-end IA redesign, reducing navigation complexity through usability testing with **12 participants**, user-flow restructuring, and progressive disclosure
- **Increased user satisfaction by 15%** by translating research into journey maps and evidence-backed narratives, securing design approval from non-technical leadership

UX Researcher

Distro · Jan 2024 – May 2024

- Redirected a 5-month fintech project by owning end-to-end research with financial advisors, uncovering unmet needs through interviews and structured synthesis
- Findings revealed the product couldn't compete with enterprise tools, leading to a **recommended B2B → B2C pivot** toward everyday investors, significantly reducing build scope and cost
