SUMMARY

Product Designer with 4 years of experience shipping **enterprise fintech**, **AI-native**, and **consumer products** across **Mobile and Web**. Owns end-to-end **Product Design** from **User Research** and **Prototyping** to production, with expertise in **Design Systems**, **Interaction Design**, and **React-based design-to-code workflows**; built a **45-component system** used daily by **4 engineers**.

SKILLS

Frontend Development: React, Next.js, TypeScript, HTML, CSS, Responsive Web Design

Design & Research: Product Design, UX/UI Design, Interaction Design, Visual Design, Wireframing, User Research, Usability Testing, Information Architecture, Journey Mapping, Accessibility (WCAG 2.1 AA)

Design Systems & Design-to-Code: Figma, Scalable Design Systems, Components, Variants, Auto Layout, Interactive Prototypes, High-Fidelity Developer-Ready Mockups

AI & Design Tools: Claude, Cursor, Figma AI, Rapid AI-Assisted Prototyping, Lean-Team Iteration

Product Delivery & Engineering Alignment: Design Handoff, Design QA, Developer-Ready Specifications, Mobile & Web

EXPERIENCE

Product Designer | Northern Trust

Jan 2026 – Present

- Reduced **time-to-insight** by **30%** across **3 core modules** by restructuring dense financial workflows into layered, **progressive-disclosure views** aligned with how operations teams reviewed and acted on data.
- Aligned **3 cross-functional groups** through findings from **8 user interviews** and usage-data analysis, enabling **Product, Engineering, and Compliance** to resolve workflow requirements before development.
- Accelerated concept validation for an **enterprise AI operations platform** by prototyping **LLM-assisted dashboards** in **Figma**, surfacing trust signals, information hierarchy, and interaction behavior before engineering investment.
- Standardized the **internal AI workflow suite** by building reusable **human-AI interaction patterns** and shared **design-system conventions** for complex financial decision workflows.

Founding Product Designer | FlairxAI

Apr 2025 – Dec 2025

- Built a **45-component Design System** adopted by a **4-engineer team** across **Mobile and Web**, defining tokens, variants, auto layout, documentation, and **design-to-code handoff** as the founding designer.
- Shipped the **0-to-1 AI hiring MVP** in **3 weeks**, two months early, by owning **discovery, wireframing, prototyping, and UX/UI design** across **4 core workflows**, with **zero WCAG 2.1 AA violations at handoff**.
- Reduced resume processing from **hours to minutes** and interview scheduling by **75%**, from two hours to 30 minutes, through Single, Bulk, and CSV upload flows with inline validation and duplicate detection.
- Cut candidate evaluation time from **40 minutes to 5** by redesigning dashboard **information architecture**, validating workflows through **User Research and Usability Testing**, and surfacing decision-critical insights upfront.

Product Designer UI/UX | Getup Nutrition

Feb 2025 – Apr 2025

- Reduced **customer service handling time** by **22%** by building a scalable **Design System** and refining conversion-focused **UX/UI flows** across the consumer e-commerce experience.
- Increased **sales conversion** by **20%** by shipping a high-visibility celebrity partnership popup that connected **brand storytelling**, product discovery, checkout, and newsletter acquisition.
- Improved **internal satisfaction** by **30%** through cross-functional workshops and rapid **Lovable prototypes**, validating **Interaction Design** decisions and accelerating user-testing cycles without engineering support.

Product Designer UI/UX | Keel Foundation

Sep 2024 – Feb 2025

- Owned the end-to-end **Information Architecture redesign**, reducing **navigation complexity** by **40%** across customer and stakeholder workflows through **Usability Testing** with **12 participants**, user-flow restructuring, and progressive disclosure.
- Increased **user satisfaction** by **15%** by translating research findings into **journey maps** and evidence-backed user narratives, securing design approval from non-technical leadership for the shipped internal navigation experience.

PROJECTS

Distro — UX Researcher | *Foundational Research, User Interviews, Personas, Journey Mapping*

Jan 2024 – May 2024

- Redirected a **5-month applied fintech project** by owning end-to-end **foundational and generative user research** with financial advisors, uncovering unmet needs through **user interviews** and structured synthesis.
- Established the team's **redesign roadmap** through **3 research-to-design deliverables**, including **personas, journey maps, and concept flows**, translating interview findings into actionable product direction.

EDUCATION

University of Colorado Boulder, Atlas Institute

Aug 2023 – Aug 2025

M.S. in Creative Technology & Design (Human-Computer Interaction)

Woxsen School of Arts & Design, India

Aug 2018 – Jul 2022

Bachelor's in Design (Honors)
